Agile Team Charter

1. Team Purpose & Vision

1.1 Team mission:

To develop a SQL Server Health Monitoring Dashboard while building practical skills in SQL Server Database Administration, T-SQL development, performance monitoring, troubleshooting, and reporting. The project aims to simulate real-world DBA responsibilities and provide hands-on experience with database monitoring and administration.

1.2 Success definition:

1. Learn SQL Server architecture and administration.
2. Gain practical SQL Server DBA experience.
3. Develop advanced T-SQL scripting skills.
4. Build a functioning dashboard that displays key SQL Server health metrics.
5. Successfully monitor backups, failed jobs, blocking sessions, database growth, and performance statistics.
6. Produce project documentation and Agile artifacts.

1.3 Product / Service:

SQL Server Health Dashboard that monitors:

1. Failed SQL Agent Jobs
2. Backup Status
3. Database Growth
4. Blocking Sessions
5. Query Execution Performance
6. Resource Utilization
7. Wait Statistics
8. SQL Server Health Indicators

---

2. Team Members & Roles

Team Member	Role	Responsibilities
Mbali Hlaba	**Product Owner / DBA Learner**	**Define requirements, learn SQL Server administration, validate dashboard functionality**
Mbali Hlaba	**Scrum Master**	**Manage Agile process, maintain backlog, track progress**
Mbali Hlaba	**SQL Developer**	**Write T-SQL scripts, stored procedures, data collection queries**

Mbali Hlaba	**Database Administrator**	**Monitor SQL Server health, troubleshoot issues, implement best practices**
Mbali Hlaba	**Tester**	**Validate dashboard functionality and data accuracy**

---

3. Ways of Working

3.1 Agile Framework

- Kanban – Trello tool

3.2 Ceremonies

Ceremony	Frequency
Daily Progress Review	Each project working day
Backlog Refinement	Weekly
Sprint Planning	Every 2 weeks
Sprint Review	End of Sprint
Retrospective	End of Sprint

---

4. Working Agreements

Rules we agree to follow as a team

- We show up prepared and on time
- We respect timeboxes
- We give constructive feedback
- We raise blockers early
- We commit to continuous improvement
- We document all DBA learning activities.
- We test all scripts before implementation.
- We follow SQL Server best practices.
- We maintain version control for project artifacts.

---

5. Communication

5.1 Primary channels:

- Email
- Trello
- Microsoft Teams

5.2 Response-time expectations:

Project tasks reviewed daily.
Critical issues addressed immediately.
General updates provided during planning and review sessions.

5.3 Remote / hybrid norms:

Progress updates recorded daily
Documentation maintained continuously
Meeting notes shared after reviews

---

6. Decision-Making

How decisions are made

- ✓ Consensus
- ✓ Product Owner final decision
- ☐ Team vote
- ☐ Agile Lead decides after input

Escalation path if we're stuck:

---

7. Definition of Done (DoD)

When is work really "done"?

- Requirements are understood.
- T-SQL code is completed.
- Scripts execute successfully.
- Test results pass validation.
- Dashboard functionality is verified.
- Documentation is updated.
- Product Owner accepts the deliverable.
- Changes are committed to source control.
- Knowledge gained is documented in the project logbook.

---

8. Core Values & Behaviours

How we treat each other

- Respect
- Transparency
- Accountability
- Trust
- Learning mindset

---

9. Risks & Constraints

What could impact our success?

9.1 Known risks:
- Limited experience with dashboard development.
- Complexity of SQL Server performance monitoring.
- Potential SQL query optimization challenges.
- Data availability during testing.

9.2 Dependencies:
- SQL Server Instance
- SQL Server Management Studio (SSMS)
- Spring Boot Backend
- Dashboard Frontend
- Available performance monitoring data

9.3 Constraints (time, budget, tools, skills):
- 7-week project timeline.
- Individual project with limited resources.
- Learning activities conducted alongside development.
- Access to relevant SQL Server environments.

---

10. Review & Improvement

Keeping the charter alive

- Charter reviewed every:
  ☐ Quarter ☐ Release ✓ Retrospective
- Last updated: _ 26 October 2026

---

11. Team Commitment

Our agreement to this charter

- Following Agile principles.

- Continuous learning and professional development.
- Delivering quality DBA solutions.
- Maintaining open communication.
- Supporting project objectives and stakeholder expectations.

By working on this team, we commit to the principles and agreements outlined above.

Name	**Signature/Agreement**
Mbali Hlaba	Agreed
Product Owner	Agreed
Stakeholder	Agreed
